NOTICE.

DANGERS IN THE CHINA SEA.

NOTICE is hereby given, that His Honor the Deputy Governor of Bengal has been pleased to direct, that so much of Horsburgh's Chart of the China Sea as is contained within the parallels of 4° to 12° of North Latitude, and 106° and 119° of East Longitude, shall be forthwith lithographed after the introduction therein of certain dangers which have been brought to His Honor's notice in Spanish Charts, published in Madrid under the authority of the Spanish Government, in 1840, and amongst them the Shoal on which the Brig "Moulmieu" was lately lost.

Parties desirous of having copies of the same, are requested to register their Names in this Office, in order that no more copies may be struck off than are likely to be required.

In the mean time the following List of the various Dangers, some certain, others doubtful, amounting in number to 32, with their Latitudes and Longitudes, and with remarks by Mr. Piddington, is published for general information:

List of Breakers, Rocks and Shoals marked on an engraved Spanish Chart, published at Madrid in 1840 under the authority of the Spanish Government, and which are either not marked or differently placed in Horsburgh's Chart of the China Seas. Edition of 1840.

No.	English Translation of Spanish Names	Danger.	Lat. No.	Long E. from Greenwich	REMARKS.
1	Fanny's Shoal, (doubtful)...	Rock above water,	$10^{\circ} 58' 40''$	$110^{\circ} 34' 10''$	Those who are acquainted with the Hydrography of the China Sea, will perceive that amongst these dangers, many, such as the Fanny's, Sea Horse's, Ardaseer's, Andrade, Middleburgh's and Gossard's Reefs, &c., are taken from our old Charts and Directories of the last or the beginning of the present Century, and it was at first intended to add to this list brief remarks upon each of them. But it was found that it was alike as impossible to say upon what authority these had been expunged from our Charts, as upon what data they had been introduced on the Spanish Chart together with those which are evidently from their dates, new discoveries, as the Thomas and Brown's dangers of 1839: It is clear that in some cases at least the authority for placing these new Shoals might be also that for replacing some of the old dangers. It is objected that nothing is so vexatious as the covering a Chart with Reefs and Shoals which do not exist. No doubt this often occasions loss of time and anxiety, but the careful Seaman would, we believe, prefer having all these dangers even erroneously marked on his Chart than be led to believe that there was an open Sea if even one existed. It is at least the duty of the Hydrographer to remind him that this part of the China Sea is studded with them. And it may not perhaps be out of place here to add, for it throws much light on this question, that recent geological researches (we allude especially to Mr. Charles Darwin's beautiful work on Coral Reefs) render it certain that Coral reefs and low Islands are not only the tops of mountains rising from the depths of the ocean, upon which the Polypa then build, but that they are subject to alternate sinkings and risings within shorter or longer periods of time; so that Islands, Reefs or Banks may appear or disappear or re-appear

21	Andrada Rock (doubtful) ...	Rock,	9° 47' 30"	111° 10' 0"	in a night and this even over large spaces Mr Darwin believes the China Sea to be an area of depression, viz. a space in which at some former period a great sinking of the crust of the earth took place, while the Philippines, and perhaps Borneo, were raised from the Ocean. As a sequel to these great convulsions smaller disturbances may continue for centuries in particular spots, and it is quite probable that many of the dangers of the China Sea may be yet elevated or sunk from time to time by this cause. The Island of Cheduba, in the Bay of Bengal, has had a large piece added to it by an earthquake with an elevation of the bed of the Sea, within the memory of the present inhabitants. See Captain Halsted's Report, in Journal of the Asiatic Society, Vol X p 491. It is unnecessary to add more to warn the Seaman of the extreme precaution required should he be engaged in this dangerous quarter of the China Sea, or to explain why we have preferred marking again many old dangers now expunged from our modern Charts, since if they have once disappeared, which we do not know, there is always some possibility of their re-appearance—which we certainly do know

NOTICE.

DANGERS IN THE CHINA SEA.

NOTICE is hereby given, that His Honor the Deputy Governor of Bengal has been pleased to direct, that so much of Horsburgh's Chart of the China Sea as is contained within the parallels of 4° to 12° of North Latitude, and 106° and 119° of East Longitude, shall be forthwith lithographed after the introduction therein of certain dangers which have been brought to His Honor's notice in Spanish Charts, published in Madrid under the authority of the Spanish Government, in 1840, and amongst them the Shoal on which the Brig "Moulmieu" was lately lost.

Parties desirous of having copies of the same, are requested to register their Names in this Office, in order that no more copies may be struck off than are likely to be required.

In the mean time the following List of the various Dangers, some certain, others doubtful, amounting in number to 32, with their Latitudes and Longitudes, and with remarks by Mr. Piddington, is published for general information :

List of Breakers, Rocks and Shoals marked on an engraved Spanish Chart, published at Madrid in 1840 under the authority of the Spanish Government, and which are either not marked or differently placed in Horsburgh's Chart of the China Seas. Edition of 1840.

No.	English Translation of Spanish Names.	Danger.	Lat. No.	Long E. from Greenwich	REMARKS.
1	Fanny's Shoal, (doubtful)...	Rock above water.	10° 58' 40"	110° 34' 10"	Those who are acquainted with the Hydrography of the China Sea, will perceive that amongst these dangers, many, such as the Fanny's, Sea Horse's, Arduacer's, Andrada, Middleburgh's and Gossard's Reefs, &c., are taken from our old Charts and Directories of the last or the beginning of the present Century, and it was at first intended to add to the last brief remarks upon each of them But it was found that it was alike as impossible to say upon what authority these had been expunged from our Charts, as upon what data they had been introduced on the Spanish Chart together with those which are evidently from their dates, new discoveries, as the Thomas and Brown's dangers of 1839: It is clear that in some cases at least the authority for placing these new Shoals might be also that for replacing some of the old dangers. It is objected that nothing is so vexatious as the converting a Chart with Reefs and Shoals which do not exist. No doubt this often occasions loss of time and anxiety, but the careful Seaman would, we believe, prefer having all these dangers even erroneously marked on his Chart than be led to believe that there was an open Sea if even one existed. It is at least the duty of the Hydrographer to remind him that this part of the China Sea is studded with them. And it may not perhaps be out of place here to add, for it throws much light on this question, that recent geological researches (we allude especially to Mr. Charles Darwin's beautiful work on Coral Reefs) render it certain that Coral reefs and low Islands are not only the tops of mountains rising from the depths of the ocean, upon which the Polyp has built, but that they are subject to alternate sinkings and risings within shorter or longer periods of time; so that Islands, Reefs or Banks may appear at one point of time and

As a sequel to these great convulsions smaller disturbances may continue for centuries in particular spots, and it is quite probable that many of the dangers of the China Sea may be yet elevated or sunk from time to time by this cause. The Island of Chodula, in the Bay of Bengal, has had a large piece added to it by an earthquake with an elevation of the bed of the Sea, within the memory of the present inhabitants. See Captain Halsted's Report, in Journal of the Asiatic Society, Vol X p 431.</p> <p>It is unnecessary to add more to warn the Seaman of the extreme precaution required should he be entangled in this dangerous quarter of the China Sea, or to explain why we have preferred marking again many old dangers now expunged from our modern Charts, since if they have since disappeared, which we do not know, there is always some possibility of their re-appearance—which we certainly do know.</p>

10th.—No Sub-Treasurer's Receipts, or Deposit of Public Securities, under the 8th of the present Conditions, will be received in this Office, except from the party concerned in the purchase in the Sale Book, or his authorized Agent. NOTICE.

DANGERS IN THE CHINA SEA.

NOTICE is hereby given, that His Honor the Deputy Governor of Bengal has been pleased to direct, that so much of Horsburgh's Chart of the China Sea as is contained within the parallels of 4° to 12° of North Latitude, and 106° and 119° of East Longitude, shall be forthwith lithographed after the introduction therein of certain dangers which have been brought to His Honor's notice in Spanish Charts, published in Madrid under the authority of the Spanish Government, in 1840, and amongst them the Shoal on which the Brig "Moulmion" was lately lost.

Parties desirous of having copies of the same, are requested to register their Names in this Office, in order that no more copies may be struck off than are likely to be required.

In the mean time the following List of the various Dangers, some certain, others doubtful, amounting in number to 32, with their Latitudes and Longitudes, and with remarks by Mr. Piddington, is published for general information :

List of Breakers, Rocks and Shoals marked on an engraved Spanish Chart, published at Madrid in 1840 under the authority of the Spanish Government, and which are either not marked or differently placed in Horsburgh's Chart of the China Seas. Edition of 1840.

No.	English Translation of Spanish Names.	Danger.	Lat. No.	Long E from Greenwich	REMARKS.
1	Fanny's Shoal, (doubtful)...	Rock above water,	10° 58' 40"	110° 34' 10"	<p>Those who are acquainted with the Hydrography of the China Sea, will perceive that amongst these dangers, many, such as the Fanny's, Sea Horse's, Ardasen's, Andrade, Middleburgh's and Gossard's Rocks, &c., are taken from our old Charts and Directories of the last or the beginning of the present Century, and it was at first intended to add to this brief remarks upon each of them.</p> <p>But it was found that it was alike as impossible to say upon what authority these had been expunged from our Charts, as upon what data they had been introduced on the Spanish Chart together with those which are evidently from their dates, new discoveries, as the Thomas and Brown's dangers of 1839: It is clear that in some cases at least the authority for placing these new Shoals might be also that for replacing some of the old dangers. It is objected that nothing is so vexatious as the covering a Chart with Rocks and Shoals which do not exist. No doubt this often occasions loss of time and anxiety, but the careful Seaman would, we believe, prefer having all these dangers even erroneously marked on his Chart than be led to believe that there was an open Sea if even one existed. It is at least the duty of the Hydrographer to remind him that this part of the China Sea is studded with them.</p> <p>And it may not perhaps be out of place here to add, for it throws much light on this question, that recent geological researches (we allude especially to Mr. Charles Darwin's beautiful work on Coral Reefs) render it certain that Coral reefs and low Islands are not only the tops of mountains rising from the depths of the ocean, upon which the Polypi then build, but that they are subject to alternate sinkings and risings within shorter or longer periods of time, so that Islands, Rocks or Banks may appear or disappear or re-appear.</p>

As a sequel to these great convulsions smaller disturbances may continue for centuries in particular spots, and it is quite probable that many of the dangers of the China Sea may be yet elevated or sunk from time to time by this cause. The Island of Cheduba, in the Bay of Bengal, has had a large piece added to it by an earthquake with an elevation of the bed of the Sea, within the memory of the present inhabitants. See Captain Halsted's Report, in Journal of the Asiatic Society, Vol X p 484.</p> <p>It is unnecessary to add more to warn the Seaman of the extreme precaution required should he be entangled in this dangerous quarter of the China Sea, or to explain why we have preferred marking again many old dangers now expunged from our modern Charts, since if they have once disappeared, which we do not know, there is always some possibility of their re-appearance—which we certainly do know.</p>

FORT WILLIAM,

SECRET DEPARTMENT, 20TH APRIL, 1843.

The Hon'ble the President in Council has the highest satisfaction in publishing the following General Orders by the Right Hon'ble the Governor General, with its accompaniments, announcing a victory gained, under Divine Providence, by His Excellency Major General Sir Charles Napier, K. C. B., in the vicinity of Hyderabad, over Meer Shere Mahomed, of Meerpoor, on the 4th ultimo.

The President in Council directs, that the General Order and the substance of the despatch annexed, shall be read to the European Troops to-morrow morning, at sun-rise, under a salute of 21 guns fired from the Ramparts of Fort William.

By order of the Hon'ble the President in Council,

T. R. DAVIDSON,

Offy. Secy. to Govt. of India.

GENERAL ORDERS

BY THE RIGHT HON'BLE THE GOVERNOR GENERAL OF INDIA.

Agra, the 11th April, 1843.

The Governor General announces to the army, another and a most decisive victory gained by His Excellency Major General Sir Charles Napier, K. C. B., in the vicinity of Hyderabad, over 20,000 Beloochees, led by Meer Shere Mahomed, of Meerpoor, a chief, who, having no ground whatever of complaint against the British Government, preferred the chances of war to the security of peace, and has now no refuge but the desert.

The Major General directed his force with the same consummate ability which characterised his operations at Meeanee, and all the troops, worthy of being so commanded, executed their movements with a precision and steadiness which secured the victory to their impetuous valour.

The army of Scinde has twice beaten the bravest enemy in Asia, under circumstances which would equally have obtained for it the victory over the best troops of Europe.

The Governor General regards with delight the new proofs which the army has given of its pre-eminent qualities in the field, and of its desire to mitigate the necessary calamities of war by mercy to the vanquished.

The ordinary expression of thanks would ill convey the extent of the debt of gratitude which the Governor General feels to be due to His Excellency Major General Sir Charles Napier on the part of Government, the army, and the people of Hindoostan.

To have punished the treachery of protected princes; to have liberated a nation from its oppressors; to have added a province, fertile as Egypt, to the British empire, and to have effected these great objects by actions in war unsurpassed in brilliancy, whereof a grateful army assigns the success to the ability and valour of its General; these are not ordinary achievements, nor can the ordinary language of praise convey their reward.

The Governor General directs, that the several corps which, by the General Order of the 5th ultimo, were permitted to bear the word "Hyderabad, 1843," upon their appointments, standards and colors, respectively, shall, in lieu thereof, bear the word "Meeanee."

The Governor General is pleased to authorize the

1st Troop Bombay Horse Artillery ;
2d Company 1st B. Bombay Artillery ;
2d Company 2d B. Bombay Artillery ;
3d Company Golundauze do. do. ; and
C. Company Madras Sappers and Miners,

to bear upon their appointments, and the 3d Regiment of Bombay Light Cavalry, and the 9th Regiment of Bengal Light Cavalry, the Poona Horse and the Scinde Horse, upon their standards and appointments, and the 1st Grenadiers, the 8th, 12th, 21st, and 25th Regiments of Bombay Native Infantry, upon their colors and appointments, the word "Hyderabad."

The Governor General having taken into consideration the peculiar merits of the 1st troop of the Bombay Horse Artillery under Major Leslie, which having participated in the distinguished services of the army of Candahar, under his Excellency Major General Sir W. Nott, G. C. B., and having returned to India with the troops from Cabool, marched from the camp of Ferozepore early in January and joined the army of Scinde, in time to decide, in conjunction with H. M.'s 22d Regiment, the battle of Hyderabad, is pleased to direct, that the 1st troop of the Bombay Horse Artillery shall hereafter for ever be denominated the 1st, or "Leslie's" troop of Horse Artillery, and shall, in addition to all other decorations or inscriptions upon its appointments, bear the "Eagle."

The Governor General directs, that this General Order, and the substance of the despatches annexed, shall be explained to the troops at all the stations of the army, and that at all such stations a salute of 21 guns shall be fired in honor of the victory of Hyderabad.

By order of the Right Hon'ble the Governor General of India,

J. THOMASON,
Secy. to the Govt. of India,
with the Governor General.

From Major General Sir C. J. NAPIER, K. C. B.,

Commanding in Scinde and Beloochistan,

To the Right Hon'ble LORD ELLENBOROUGH,

Governor General of India,

&c. &c. &c.

Dubba, four miles from Hyderabad, 24th March, 1843.

MY LORD,

The forces under my command marched from Hyderabad this morning at day-break. About half past 8 o'clock we discovered and attacked the army under the personal command of the Meer Shere Mahomed, consisting of twenty thousand men of all arms, strongly posted behind one of those large nullahs, by which this country is intersected in all directions. After a combat of about three hours, the enemy was wholly defeated with considerable slaughter, and the loss of all his standards and cannon.

His position was nearly a straight line, the nullah was formed by two deep parallel ditches, one 20 feet wide and 8 feet deep, the other 42 feet wide and 17 deep, which had been for a long distance freshly scarped, and a banquet made behind the bank expressly for the occasion.

To ascertain the extent of his line was extremely difficult, as his left did not appear to be satisfactorily defined, but he began moving to his right when he perceived that the British force outflanked him in that direction. Believing that this movement had drawn him from that part of the nullah which had been prepared for defence, I hoped to attack his right with less difficulty, and Major Leslie's troop of Horse Artillery was ordered to move forward and endeavour to rake the nullah. The 9th Light Cavalry and Poona Horse advancing in line, on the left of the artillery, which was supported on the right by H. M. 22d Regiment, the latter being, however, at first considerably retired to admit of the oblique fire of Leslie's troop. The whole of the artillery now opened upon the enemy's position, and the British line advanced in echellons from the left, H. M. 22d Regiment leading the attack.

The enemy was now perceived to move from his centre in considerable bodies to his left, apparently retreating, unable to sustain the cross-fire of the British Artillery; on seeing which Major Stach, at the head of the 3d Cavalry, under command of Captain Delamain, and the Scinde Horse, under command of Captain Jacob, made a brilliant charge upon the enemy's left flank, crossing the nullah and cutting down the retreating enemy for several miles. While this was passing on the right, H. M. 22d Regiment, gallantly led by Major Poole, who commanded the brigade, and Captain George, who commanded the corps, attacked the nullah on the left with great gallantry, and I regret to add, with considerable loss. This brave battalion marched up to the nullah under a heavy fire of matchlocks, without returning a shot till within 40 paces of the intrenchment, and then stormed it like British soldiers. The intrepid Lieutenant Coots first mounted the rampart, seized one of the enemy's standards, and was severely wounded while waving it and cheering on his men. Meanwhile the Poona Horse, under Captain Tait, and the 9th Cavalry, under Major Story, turned the enemy's right flank, pursuing and cutting down the fugitives for several miles. H. M. 22d Regiment was well supported by the batteries commanded by Captains Willoughby and Hutt, which crossed their fire with that of Major Leslie. Then came the 2d Brigade under command of Major Woodburn, bearing down into action with excellent coolness. It consisted of the 25th, 21st & 12th Regiments under the command of Captains Jackson, Stevens and Fisher, respectively: these regiments were strongly sustained by the fire of Captain Whitley's battery, on the right of which were the 8th and 1st Regiments, under Majors Browne and Clibborne; these two corps advanced

with the regularity of a review up to the intrenchments, their commanders, with considerable exertion, stopping their fire, on seeing that a portion of the Scinde Horse and 8th Cavalry in charging the enemy had got in front of the Brigade. The battle was decided by the troop of Horse Artillery and H. M. 22d Regiment.

To Lieutenant Colonel Pattle, as second in command, I am indebted for his zealous activity and readiness to execute any duties confided to his charge.

To my personal Staff, and to the general Staff of the division, my thanks are due for their zealous assistance.

I beg to recommend my acting Aid-de-camp, Lieutenant Thompson, to your Lordship's protection.

The long experience of my Military Secretary, Major McPherson, was of much assistance to me in the field.

To my extra Aid-de-camp, Lieutenant Brown, I have also to return my best thanks, especially for his assistance in examining the position of the enemy.

Captain Tucker, Lieutenants Rathbourn, Hull, North and Battersby, all did good service in the fight.

To Lieutenant Polle, acting Assistant Adjutant General, I am indebted for his zealous exertions in that department.

Of Lieutenant McMurdo's abilities, as acting Assistant Quarter Master General, I cannot speak too highly, and regret to say, he has received a sabre wound from a Beloochee, the third that he has cut down in single combat during the day.

To Major Lloyd, who commanded the Artillery, the service is indebted for the arrangements made for that arm, ably seconded by Major Leche, Captains Willoughby, Whitley and Hunt.

To the Commanders of Brigades and Regiments, and the Officers, Non-Commissioned Officers and Privates under their command, I have to return my thanks for their valiant bearing in the action.

Major Waddington rendered me the most important aid in examining the enemy's position, with that cool courage which he possesses in so eminent a degree; nor must I omit to mention the labours of Captain Henderson and Lieutenants Outlaw and Boleau, with their hardy little band of Sappers, whose labours enabled the heavy 8-inch howitzers to come up into action.

To Captain Blenkins, the service is indebted for the ablest arrangements in the Commissariat department.

The exertions of the Officers of the Medical department under Inspecting Surgeon Bell, were very laudable.

Lieutenant Leeson well arranged the baggage close up to the line, and merits thanks, for the duty of a Baggage Master, with an Indian army, is Herculean.

I will not close the list of those to whom I am indebted, without mentioning that brave and indefatigable Arab gentleman Ally Ackbar, to whose ability and activity I am much indebted.

Many, my Lord, have been the acts of individual valour performed by Officers and Private Soldiers (both European and native), and the account of them shall hereafter be laid before your Lordship.

The Beloochee Infantry and Artillery fought well: their Cavalry made no stand, and 5,000 disciplined soldiers were not to be long resisted by a barbarian force, even though that force were nearly 5 to 1.

From the accounts which have come in since writing the above, there is reason to believe, that the loss of the enemy has been very great: about 500 bodies have been counted upon the field of battle, and it is said, that the neighbouring villages are filled with dead and wounded men. Eleven pieces of cannon were taken in position on the nullah, and seventeen standards.

It gives me great satisfaction to say, that some prisoners have been taken, and though the number is small, it is still some advance towards a civilized mode of warfare, for I cannot help thinking that the desperate resistance generally made by wounded Beloochees has arisen from their own system of warfare, which admits of no quarter being given in action.

We are at present employed in collecting the wounded Beloochees within our reach, in order to render them medical assistance.

I have deeply to regret the loss of the brave and excellent Captain Garrett, of the 9th Light Cavalry, who fell honourably in the battle, and also the fall of Lieutenant Smith, of the Bombay Artillery. With unsurpassed and desperate valour he galloped in front of his battery, and rode up upon the top of the nullah (filled with enemies) to see where his guns could bear with greatest effect—Here this hero fell. Many of the Scindian people (who are all in great delight at the destruction of their Beloochee oppressors) have come into camp from different parts, and bring assurances that the Beloochee force is wholly dispersed, and that Meer Shere Mahomed has fled into the desert with his family and about 40 followers; but, as Emaum Ghur has been destroyed, the heat will soon force him to quit this temporary refuge where there is no protection from the sun. He will therefore probably endeavour to reach Multan. I have written to his Highness Ali Murad to arrest his progress in that direction, if possible, and to make him prisoner.

Three Beloochee chiefs fell in the action; one of them was the great promoter of the war, Hocho Mahomed Seede, and I have every reason to believe that not another shot will be fired in Scinde.

I have, &c.

FORT WILLIAM,

SECRET DEPARTMENT, 26TH APRIL, 1843.

NOTIFICATION

BY THE RIGHT HON'BLE THE GOVERNOR GENERAL OF INDIA.

AGRA, THE 16TH APRIL, 1843.

Despatches, from which the following are extracts, were this day received by the Governor General, from His Excellency Major General Sir Charles Napier, K. C. B., by the route of Sukkur.

By order of the Right Hon'ble the Governor General of India,

J. THOMASON,

*Sery. to the Govt. of India,
with the Governor General.*

From Major General Sir C. J. NAPIER, K. C. B.,

Commanding in Scinde and Beloochistan,

To the Right Hon'ble LORD ELLENBOROUGH,

Governor General of India,

&c. &c. &c.

Camp Hyderabad, 23d March, 1843.

MY LORD,

Major Stack joined me last night with the 3d cavalry, the 8th N. I., and Major Leslie's troop of horse artillery. The enemy fired upon them as they passed Meeanee, but I had reinforced his party by the Poona horse at Muttaree, in case of accidents, and also sent out the Scinde horse to meet him at Meeanee, and in an hour after the enemy appeared I was there myself with a troop of the 9th light cavalry, the remainder of the last named regiment following me with some cannon. No serious attack took place, and the whole arrived in camp late at night. I have given them this day to rest, and to-morrow morning I mean to attack the enemy wherever I find him: he is either at Kotree, Dubba, or Jaum Ali Ka Tandah; all these are within 6 miles of Hyderabad, and he has already begun attacking our camels.

I beg to say, that Major Stack's conduct on this march, has pleased me very much. All sorts of reports reached him of the great force of the enemy, but he marched on boldly like a good soldier.

I have, &c.

(Signed) C. J. NAPIER, Major General.

From Major M. STACK,

3d Regiment Light Cavalry,

To Major General Sir CHARLES J. NAPIER, K. C. B.,

Commanding in Scinde and Beloochistan.

Camp at Akseer, 27th March, 1843.

SIR,

I have the honor to report the arrival of the force under my command, as per margin, at Hyderabad, on the night of the 22d instant, having been detained a few hours on the road from Muttaree by a skirmish with the enemy on that day, the particulars of which I have the honor to subjoin.

Major Leslie's troop of
H. A. 5 guns.

3d Regt. Lt. Cavalry.
297 Sabres, including
drill and sick.

8th Regt. N. I.
818 of all ranks.

I marched from Muttaree at 11 A. M., and after passing the scene of action of the 17th ultimo, about 1 P. M., some horsemen appeared to my left front. Lieutenant McMurdo, who, (with the Poona horse under Lieutenant Tait,) had joined me on the morning of the 21st, proceeded to reconnoitre them with a few troopers of the advance guard, and I directed the Poona horse to remain on their present ground, ■ reinforce the rear guard and protect the baggage.

As I could perceive the number of the enemy encreasing, and they were firing sharply on our advance party, I detached a troop of the 3d light cavalry under Lieutenant Moore to Lieutenant McMurdo's support, and sent Lieutenant Ashburner, Adjutant 3d light cavalry, to report to you the appearance of the enemy. Lieutenant Moore's troop made a spirited charge on the enemy's advance, but at too great a distance to reach them before they had secured themselves in the bed of the river.

Lieutenant McMurdo sent to report to me, that the enemy were advancing in force, on which I halted the column, with the right resting on the Phoolahie, and detached two guns under Captain Rowan, ■ squadron 3d light cavalry under Captain Malet, and the Grenadier company 8th regiment under Captain Morse to check their advance; at this time the enemy were crossing the bed of the Phoolahie in great numbers both horse and foot, about 3-4ths of a mile to our left rear in the direction of our baggage, which was in the rear of the column; large bodies were drawn up in front of a wood on the opposite side of the river; and heavy masses were seen with a glass to their left rear, and advancing towards the head of our column.

The guns took a position nearly opposite the point where the enemy were crossing the bed of the river, and opened upon them with such effect that they were instantly checked; a few more rounds telling on them severely, they retreated with precipitation, and recrossed the river much more rapidly than they had advanced; in their retreat they carried with them all those who were ranged in front of the wood. The large bodies in the distance also fell back, and in about half an hour after the opening of our guns there was not an enemy in sight.

Captain Jacob's horse having arrived from Hyderabad, about the time our fire ceased, I directed them to cover the rear of the columns, and recalled our detached parties to join the main body: by this time the baggage being well in advance I resumed the march, and arrived in camp without the slightest loss of any sort.

I have, &c.,

3d Regt. of Light Cavalry,
late Comdg. Troops en route
from Sukkur to Hyderabad.

From Major General Sir C. J. NAPIER, K. C. B.,

Commanding in Scinde and Beloochistan,

To the Right Honorable LORD ELLENBOROUGH,

Governor General of India,
&c. &c. &c.

Ahar ka Kanda, 26th March 1849; 5 o'clock P. M.

MY LORD,

'This town is 20 miles from the field of battle. We passed two prepared positions of great strength. I shall reach Meerpoor to-morrow. The Ameer, I understand, has fled to the desert in great terror, and all his family with him. The inhabitants receive us with great joy, and are very desirous to be assured that we mean to keep the country.

The Poona horse has pursued the Ameer and are now near Meerpoor, 40 miles from the field.

Sobdar's servant (and the great mover of his rallied force) was *Hoche Mahomed Seedee*; he fell in the battle, and it was *his followers* that stood against the 22d regiment. Three other chiefs have fallen, Golam Ali Talpoor, Ali Khan Talpoor and Jaffa Khan Murry.

I have, &c.,

(Signed) C. J. NAPIER, Major General.

GENERAL ORDERS BY THE RIGHT HONORABLE THE GOVERNOR GENERAL OF INDIA.

AGRA, THE 17TH APRIL, 1849.

The Governor General, at the recommendation of His Excellency the Governor of Scinde, is pleased to direct, that, in all the territories conquered from the Amirs of Scinde, no demand shall be made on the part of the British Government, on account of any arrears of revenue due to the

Amers on the 17th of February 1843; but that from that date, all revenue heretofore payable to the Amers, except under the head of Transit Duties, already abolished, shall be due and payable to the officers of the British Government.

By order of the Right Honorable the Governor General of India,

J. THOMASON,

Secy. to the Govt. of India,

with the Governor General.

Re-published by order of the Honorable the President in Council,

T. R. DAVIDSON,

Offg. Secy. to Govt. of India.

FORT WILLIAM,

SECRET DEPARTMENT, 26TH APRIL, 1843.

GENERAL ORDERS BY HIS EXCELLENCY THE GOVERNOR OF SCINDE.

Head-Quarters, Meerpoor, the 2d April, 1843.

1. Lieutenant Rathbourne is to proceed to Hyderabad, and to assume the duty of Magistrate of the town, together with that of collecting the revenue in Lower Scinde, on the left bank of the Indus.

2. Those revenues on the right bank are to be collected by Captain Preedy, who is also to assume the duties of Magistrate of Kurrachee.

3. The revenues of Sukkur and Roree, with the districts attached to those towns, is to be collected by Captain Pope, who is also to perform the duties of Magistrate of Sukkur. The Magistrate for Roree will be hereafter nominated.

4. Lieutenant Brown is appointed Commissioner for the Civil administration of the whole of the conquered territory, under the orders of the Governor.

5. To Lieutenant Brown, the three Collectors above mentioned, are to send in their reports monthly; stating the receipts and expenditure of their respective districts, from which the Commissioner is to make up a general report to the Governor.

6. The above officers are not to make any avoidable change in the ancient customs and laws of the country as we now find them. The conquest of a country is a sufficient convulsion for the people of that country, without adding to their disturbance by abrupt innovations on their habits, and the usual routine of their social life. The above mentioned officers are, therefore, requested to confine their exertions to the correction of those numerous evils which the late tyrannical government of the Belooch conquerors had inflicted upon this unhappy land. It will depend upon the Government of Scinde to make the people hail the coming of the British, as a memorable redemption from slavery and oppression; or look upon it with apathy, as a mere change of cruel masters.

7. The above nomination of officers is distinctly to be considered as a temporary measure, awaiting the decision of the Governor General.

By order,

(Signed) P. McPHERSON, Major,

Military Secretary.

Second.—Letters and Newspapers addressed to France as well as those to other foreign countries, with which France is the channel of communication (if the latter are expressly directed to be so sent) will be made up in Packets and sent to the French Post Master at Marseilles; but Letters for Foreign Countries, other than France, if not specially directed to France, will be included in the Packets for England. Letters, &c. for places lying between Bombay and Marseilles, will be despatched in separate Packets.

NOTICE

DANGERS IN THE CHINA SEA.

NOTICE is hereby given, that His Honor the Deputy Governor of Bengal has been pleased to direct, that so much of Horsburgh's Chart of the China Sea as is contained within the parallels of 4° to 12° of North Latitude, and 106° and 119° of East Longitude, shall be forthwith lithographed after the introduction therein of certain dangers which have been brought to His Honor's notice in Spanish Charts, published in Madrid under the authority of the Spanish Government, in 1840, and amongst them the Shoal on which the Brig "Moulmien" was lately lost.

Parties desirous of having copies of the same, are requested to register their Names in this Office, in order that no more copies may be struck off than are likely to be required.

In the mean time the following List of the various Dangers, some certain, others doubtful, amounting in number to 32, with their Latitudes and Longitudes, and with remarks by Mr. Piddington, is published for general information:

List of Breakers, Rocks and Shoals marked on an engraved Spanish Chart, published at Madrid in 1840 under the authority of the Spanish Government, and which are either not marked or differently placed in Horsburgh's Chart of the China Seas. Edition of 1840.

No.	English Translation of Spanish Names.	Danger.	Lat. No.	Long E. from Greenwich	REMARKS.
1	Fanny's Shoal, (doubtful)...	Rock above water.	10° 38' 40"	116° 31' 10"	Those who are acquainted with the Hydrography of the China Sea, will perceive that amongst these dangers, many, such as the Fanny's, Sea Horse's, Antiseer's, Andiana, Middleburgh's and Gossard's Reefs, &c., are taken from our old Charts and Directories of the last or the beginning of the present Century, and it was at first intended to add to this list brief remarks upon each of them. But it was found that it was alike as impossible to say upon what authority these had been expunged from our Charts, as upon what data they had been introduced on the Spanish Chart together with those which are evidently from their dates, new discoveries, as the Thomas and Brown's dangers of 1839: It is clear that in some cases at least the authority for placing these new Shoals might be also that for replacing some of the old dangers. It is objected that nothing is so vexatious as the covering a Chart with Reefs and Shoals which do not exist. No doubt this often occasions loss of time and anxiety, but the careful Seaman would, we believe, prefer having all these dangers even erroneously marked on his Chart than be led to believe that there was an open Sea if even one existed. It is at least the duty of the Hydrographer to remind him that this part of the China Sea is studded with them.

21	Andrada Rock (doubtful) ...	Rock,	8° 47' 30"	111° 10' 0"	In a night, and this even over large spaces Mr. Darwin believes the China Sea to be an area of depression, viz. a space in which at some former period a great sinking of the crust of the earth took place, while the Philippines, and perhaps Borneo, were raised from the Ocean. As a sequel to these great convulsions smaller disturbances may continue for centuries in particular spots, and it is quite probable that many of the dangers of the China Sea may be elevated or sunk from time to time by this cause. The Island of Cindaba, in the Bay of Bengal, has had a large piece added to it by an earthquake with an elevation of the bed of the Sea, within the memory of the present inhabitants. See Captain Halsted's Report, in Journal of the Asiatic Society, Vol X p 434. It is unnecessary to add more to warn the Seaman of the extreme precaution required should he be entangled in this dangerous quarter of the China Sea, or to explain why we have preferred marking again many old dangers now expunged from our modern Charts, since if they have once disappeared, which we do not know, there is always some possibility of their re-appearance—which we certainly do know.

NOTICE.

DANGERS IN THE CHINA SEA.

NOTICE is hereby given, that His Honor the Deputy Governor of Bengal has been pleased to direct, that so much of Horsburgh's Chart of the China Sea as is contained within the parallels of 4° to 12° of North Latitude, and 106° and 119° of East Longitude, shall be forthwith lithographed after the introduction therein of certain dangers which have been brought to His Honor's notice in Spanish Charts, published in Madrid under the authority of the Spanish Government, in 1840, and amongst them the Shoal on which the Brig "Moulmien" was lately lost.

Parties desirous of having copies of the same, are requested to register their Names in this Office, in order that no more copies may be struck off than are likely to be required.

In the mean time the following List of the various Dangers, some certain, others doubtful, amounting in number to 32, with their Latitudes and Longitudes, and with remarks by Mr. Piddington, is published for general information:

List of Breakers, Rocks and Shoals marked on an engraved Spanish Chart, published at Madrid in 1840 under the authority of the Spanish Government, and which are either not marked or differently placed in Horsburgh's Chart of the China Seas. Edition of 1840.

No	English Translation of Spanish Names.	Danger.	Lat. No.	Long E. from Greenwich	REMARKS.
1	Fanny's Shoal, (doubtful)...	Rock above water,	10° 58' 40"	110° 34' 10"	Those who are acquainted with the Hydrography of the China Sea, will perceive that amongst these dangers, many, such as the Fanny's, Sea Horse's, Ardaseer's, Andrada, Middleburgh's and Gosard's Reefs, &c., are taken from our old Charts and Directories of the last or the beginning of the present Century, and it was at first intended to add to this list brief remarks upon each of them. But it was found that it was alike as impossible to say upon what authority these had been expunged from our Charts, as upon what data they had been introduced on the Spanish Chart together with those which are evidently from their dates, new discoveries, as the Thomas and Brown's dangers of 1839: It is clear that in some cases at least the authority for placing these new Shoals might be also that for replacing some of the old dangers. It is objected that nothing is so vexatious as the covering a Chart with Reefs and Shoals which do not exist. No doubt this often occasions loss of time and anxiety, but the careful Seaman would, we believe, prefer having all these dangers even erroneously marked on his Chart than be led to believe that there was an open Sea if even one existed. It is at least the duty of the Hydrographer to remind him that this part of the China Sea is studded with them. And it may not perhaps be out of place here to add, for it throws much light on this question, that recent geological researches (we allude especially to Mr. Charles Darwin's beautiful work on Coral Reefs) render it certain that Coral reefs and low islands are not only the tops of mountains rising from the depths of the ocean, upon which the Polypæ then build, but that they are subject to alternate sinkings and risings within shorter or longer periods of time, so that islands, Reefs or Banks may appear, disappear or re-appear.

As a sequel to these great convulsions smaller disturbances may continue for centuries in particular spots, and it is quite probable that many of the dangers of the China Sea may be yet elevated or sunk from time to time by this cause. The Island of Chedoke, in the Bay of Bengal, has had a large piece added to it by an earthquake with an elevation of the bed of the Sea, within the memory of the present inhabitants. See Captain Habel's Report in Journal of the Asiatic Society, Vol X p 434.</p> <p>It is unnecessary to add more to warn the Seaman of the extreme precaution required should he be engaged in this dangerous quarter of the China Sea, or to explain why we have preferred marking again many old dangers now expunged from our modern Charts, since if they have once disappeared, which we do not know, there is always some possibility of their re-appearance—which we certainly do know.</p>

NOTIFICATION

BY THE RIGHT HON'BLE THE GOVERNOR GENERAL OF INDIA.

AGRA, THE 20TH APRIL, 1843.

A despatch, from which the following is an extract, was this day received by the Governor General from His Excellency Major General Sir Charles Napier, K. C. B.

By order of the Right Hon'ble the Governor General of India,

J. THOMASON,
*Secy to the Govt. of India,
with the Governor General.*

From His Excellency Major General Sir C. J. NAPIER, K. C. B.,
Governor of Scinde,

To the Right Hon'ble LORD ELLENBOROUGH,
Governor General of India,
&c. &c. &c.

Meerpoor, 5th April, 1843.

MY LORD,

I have the honor to report to your Lordship, that yesterday the fortress of Oomercote, opened its gates to the British force sent against it, and is in our hands. I have ordered a small garrison to hold it till further orders.

Considerable difficulties have prevented our sooner getting hold of this most important place; but the zeal and ability of the officers employed, (Captain Whitte, commanding in the first instance, and Major Woodburn afterwards,) overcame these difficulties. In justice to Lieutenant Brown, my Aid-de-Camp, I must say that this success has been chiefly owing to his exertions and zeal. Having myself remained in a central position, to receive the earliest reports of the progress made by the inundation caused by the river Indus, and to direct the movements of the troops, which a deficiency of water towards Oomercote obliged me to divide, I was unable to command in person the detachment which proceeded to Oomercote. Being at Jourbee, I received a despatch from Oomercote, saying, that it was defended by a powerful garrison; and at the same moment I received another from Hyderabad, to say, that the river was rising with unusual rapidity. It therefore became necessary to give up the idea of attacking Oomercote, and I ordered a retreat; returning myself to this town. Just as my orders to retreat reached the advancing force, (then within 20 miles of Oomercote,) another report reached the Commanding Officer that the fortress was abandoned! Between this report and my order for him to retreat, the Commanding Officer was embarrassed, upon which Lieutenant Brown mounted his horse, and under the burning sun of this climate, rode 40 miles to Meerpoor, received my orders and instantly returned, taking the supporting troops on the road along with him, and Oomercote was taken!

Justice to this officer has made me enter into a detail otherwise unnecessary; but the man who rides 80 miles without stopping, and in broad day under a Scindian sun, deserves this compliment.

The importance of having Oomercote in our possession is so great, that it repays every inconvenience. Emam Ghur does not exist, and I believe that no other rallying point remains in the desert for the defeated Amier Shere Mahomed, who, as is generally supposed, will fly to the Punjab.

Thus, my Lord, I think I may venture to say, Scinde is now subdued. The Scindian population every where express their satisfaction at the change of masters.

I have, &c.,
(Signed) C. J. NAPIER, Governor.
(True extracts,)

J. THOMASON,
